<b>Office Action Summary</b>	<b>Application No.</b> 10/677,483	<b>Applicant(s)</b> HICKLE, RANDALL S.	
	<b>Examiner</b> CATHERINE N. WITCZAK	<b>Art Unit</b> 3767	

**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 08 August 2008.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-9 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. It is unclear what Applicant is claiming with the limitation "providing orthogonally redundant information regarding at least one of said physiological conditions." Applicant is required to describe what is meant by said limitation.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 1-9 are rejected under 35 U.S.C. 102(e) as being anticipated by Smith et al (US 2003/0029453).

Art Unit: 3767

Smith et al disclose in Figure 1 a system comprising two or more health monitor devices (E,F,G,H); a user interface (D); an electronic controller (I) including memory storing safety data connected with the monitors, effectors, and the user interface (L).

2. Claims 1-9 are rejected under 35 U.S.C. 102(e) as being anticipated by Bui (US 2003/0125662).

Bui discloses in Figure 8 a system comprising two or more health monitor devices (16a, 16b); a user interface; an electronic controller (26) including memory storing safety data connected with the monitors, effectors, and the user interface.

### ***Response to Arguments***

3. Applicant's arguments, see Response, filed 8/8/2008, with respect to the double patenting rejections have been fully considered and are persuasive. The double patenting rejections have been withdrawn.

4. Applicant's arguments filed 8/8/2008 have been fully considered but they are not persuasive. Applicant argues that Smith does not disclose a sedation and analgesia system. Examiner points out that Applicant has not positively recited the drugs being supplied by the system to be specifically those used for sedation and/or analgesia and thus the device of Smith discloses all the limitations claimed. As for the limitation regarding the monitoring devices providing orthogonally redundant information regarding the physiological conditions, Applicant has not disclosed what is meant by the limitation and thus it is unclear what is being claimed – since the devices of Smith and Bui disclose all the structural limitations claimed, it is held by the Examiner that these devices are inherently capable of performing this function.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to CATHERINE N. WITCZAK whose telephone number is (571)272-7179. The examiner can normally be reached on Monday through Friday, 8-5 EST.
